Naju as the center of the Jeolla provinces

in the future we open together

## Greetings! I am **Kang In-gyu**, Mayor of Naju.

You are cordially welcome to the website of Naju City.

Naju is a town that boasts its long history and culture of two thousand years, the spirit of a righteous town, and its taste and style. Lately, Naju is growing as the energy capital of Korea as Gwangju & Jeollanam-do Joint Innovation City (Bitgaram).

Marking the millennial anniversary of the province being named Jeolla-do, the city is opening "**the great era of Naju that marches toward another millennium as the center of the Jeolla provinces**".

Your inputs will turn into policies and create the power that makes "**Naju as the center of the Jeolla provinces in the future we open together**". I look forward to strong support from people of Naju and netizens.

Mayor of Naju

*Kang In-gyu*
